2. [REDACTED] Comment. Riesa supplies the air units of the bomber corps of the Twenty-Fourth Air Army. The rate of outgoing shipments dropped about 60 percent as compared with the summer months. [REDACTED]. The decrease was caused by reduced flying activity of the bomber units during the winter.

25X1

25X1

3. [REDACTED] Comment. The low rate of outgoing shipments from the depot at Radebeul, which is the depot of the First Gds Mecz Army, corresponds with that of the preceding months. [REDACTED]. The depot supplies only some of the units of the First Gds Mecz Army, while other units of this army are supplied directly by the depots in Valtou and Strassgruebchen-Bernsdorf.

25X1

4. [REDACTED] Comment. The individual training of troops resulted in a decrease in the fuel consumption. The number of outgoing shipments from the fuel depot of the Eighth Gds Army corresponds with that in November. It is only about 50 percent of the fuel consumed during the fall maneuvers. [REDACTED]

5. [REDACTED] Comment. After November, the reserve depot of the GOFG issued small quantities of fuel which, however, were immediately replaced. [REDACTED]
